## **Special Event – Tour at CFAN – GE Jet Engines, Composite Fan Blade Manufacturer April 6, 2018 in San Marcos, TX**

Formed in 1993, CFAN is a 50/50 Joint Venture between GE Aviation and SNECMA of France. The partnership was created to introduce composite fan blades in their GE90 Engine that powers the Boeing 777. It has leveraged the success of this product to introduce additional fan blades on the GEnx Engines that power the Boeing 787 and Boeing 747-8.

**Special Instructions:** RSVP by **April 3, 2018** to Rick Perkins at [rperkins@chemlogic.us](mailto:rperkins@chemlogic.us) with the following information: Name, Company, Email, Phone Number, and Citizenship (Not Restricted).

**- SAVE THE DATE -**

The logo for Inman Gallery consists of the words "INMAN" and "GALLERY" stacked vertically in a white, uppercase, sans-serif font, set against a grey rectangular background.

## **Inman Gallery Tour**

**with Guest Speaker, Dario Robleto**

**May 11, 2018 in Houston, TX**

And now, for something completely different...

For our final meeting this season, the SAMPE South Texas chapter will be hosting an evening social event at Inman Gallery, 3901 Main St., Houston, TX 77002. Light hors d'oeuvres and refreshments provided.

<http://www.inmangallery.com/>

Our guest speaker is a modern sculptor and conceptual artist who employs unusual materials in his work.

<http://www.dariorobleto.com/>

Bring a guest and join us for an event of intellectual and spiritual stimulation. More to come in our next newsletter. Contact [johnny.i.golden@boeing.com](mailto:johnny.i.golden@boeing.com) to RSVP.

**South Texas Chapter of the Society for the Advancement of Materials and Process Engineering, SAMPE, is soliciting company sponsors for the 2017 / 2018 year.** The South Texas Chapter of SAMPE is a growing society dedicated to advancing the fields of material and process engineering. SAMPE, through its South Texas Chapter, holds local meetings that provide opportunities for suppliers and the engineering community to get together. At each meeting, there is a social hour for members to establish new contacts and catch up on business, a meal, and a technical presentation or plant tour. These presentations and tours provide a learning and information exchange environment for meeting attendees.

Sponsorship donations help offset the costs of chapter activities, including establishing and providing student chapter leadership awards and offsetting some of the costs of students attending chapter meetings. The list of tangible sponsorship benefits will continue to be developed and currently includes recognition at events, websites, and chapter newsletters. Sponsorship will increase your company's visibility to local materials and process engineers in the industry. Sponsorship allows the cost per meeting to remain low, which helps bring in as many attendees as possible. If you would like to be a sponsor, please contact the treasurer, Rick Perkins, at 512-426-5728 or [rperkins@chemlogic.us](mailto:rperkins@chemlogic.us), or any officer of the South Texas SAMPE Chapter.
